

Subject: Teambuilding – Phase 1

Date: 9 April 2016

Done by: Ajay

WORKSHOP FEEDBACK SUMMARY

At the beginning of the Workshop

How much do you already know about the subject of this Workshop? Circle the number that best applies to you now:

1	2	3	4	5	6	7	8	9	10
---	---	---	---	---	---	---	---	---	----

Almost nothing

Quite a lot

Number Reporting – Total 19

1		1	4	4	3	1	4	1	
---	--	---	---	---	---	---	---	---	--

At the end of the Workshop

How much more do you think you have learned about the subject in this Workshop? Circle one number.

1	2	3	4	5	6	7	8	9	10
---	---	---	---	---	---	---	---	---	----

Almost nothing

Quite a lot

Number Reporting – Total 19

							8	3	8
--	--	--	--	--	--	--	---	---	---

How did you find the training and what score would you give? Circle one.

Very Good	Good	Average	Not Very Good
-----------	------	---------	---------------

Number Reporting – Total 19

10	9		
----	---	--	--

What was the best thing about this Workshop?

- The bucket activity
- Working together as a team
- Learning to know everyone very well and about the activities. They were interesting. (Candidate)
- Knowing each other and working together and completing all but one task
- Working together and doing things right
- The games that helped me work as a team and understand each other
- The different activities
- The fact we all worked together as a team, trusted each other
- The idea behind it because leadership is very important and being a leader takes a lot of responsibility and practice (Candidate)
- The best thing was that I learnt how to easily trust people and how to come out of my comfort zones. I also experienced how to work as a team and all the activities were fun. (Candidate)
- We were pushed out of our comfort zones enabling us to become better leaders. We were also taught the importance of trusting teammates
- Learning more about my team and learning to adapt to new roles in a team
- Learning how to trust other people, and doing new challenging activities (Candidate)
- The practical application to each fun activity so we can visualise it in a real-life situation
- Being able to be flexible in a team and being able to play a different role. Also I was able to increase my trust
- Learning my strengths and weaknesses and learning to accept that as it is but not limiting myself as a leader
- Learning, experiencing and having fun with all the different types of people (Candidate)
- Working together to climb the wall, and working with everyone to overcome their fear to do what seems impossible
- Got to work with the rest of the scholars through really difficult challenges – the wall – which taught me a lot about their characters. I feel I know them much better and learnt a lot about the different roles in a team

What could be improved?

- Our working together
- Encouraging others
- I believe nothing much (Candidate)
- I wasn't quite tolerant
- Talking to each other, limit arguments and to agree more and to act like leaders we are
- Listening to each other, not arguing with each other and not talking at the same time
- Nothing
- To improve listening to each other more during the exercises
- Maybe more activities and time to enjoy them (Candidate)
- I think more exercises on working together would be nice (Candidate)
- Nothing
- Wish we could have done some water sports ... 😊
- The ideas that we had, the way we communicated and more trust in one another (Candidate)
- A little more time to do other activities
- Maybe include challenges that would suit everyone and ensure everyone feels included and includes different people's preferences
- In future spending more time here to do water activities etc. Spending a weekend maybe.
- The number of activities. If more activities could have been done, I would learn even more about people (Candidate)
- The difficulty of the first few challenges and more equipment for more dynamic tasks
- Slightly less talking in the pen, more explaining of roles while doing the activities

Would you like to say anything else?

- Thank you but no
- No thanks
- I appreciate you inviting me here. I am very happy. (Candidate)
- No but it was amazing
- No!
- No
- No
- No
- I would like to say that I had so much fun and learned a lot from this experience (Candidate)
- The exercises taught me more on how to be a leader than to be the one who tags along. It was fun and amazing (Candidate)
- Thanks for helping build our character
- Thank you for this! I really enjoyed it
- I think this was a good idea to have this workshop. We all learnt new things about ourselves and other people (Candidate)
- Lexy and Rebecca lead the workshop amazingly
- I came here today having very little trust in others and not believing in myself but now I can do both
- Thank you for this wonderful opportunity to get to bond with my Beacon family while growing personally too
- That was a new experience, and is much appreciated as so much more has been learnt about myself (Candidate)
- No
- Very helpful instructors, they used a lot of analogies eg a car, which really helped to understand the ideas behind a team

Learnings (back of the sheet comments)

- I'll trust people more; I'll also work as a team or use (team building) in situations
- One thing I will do differently: be a good communicator when solving problems. TEAMWORK MAKES A DREAMWORK 😊
- Working as a team, characteristics of a good team and a good leader (Candidate)
- I am going to lead my friends and family like a leader even if when I am not
- The most important thing I learned today was how to communicate with my fellow teammates, and how to understand the weaknesses and strengths of different ranges, and lastly to understand each other as a team and to work together all through the activities
- I will be more supportive and encourage my teammates more often
- I'm going to practise it with other people in school
- To make sure that I remember it every time when it is team building exercises. Try to rephrase it to yourself every day.
- The thing that I as one shall do differently is try and think what will not only be comfortable for me, but for others around me even if it means I sacrifice my comfort. (Candidate)
- I learnt how to trust people more and more on how to work as a team (Candidate)
- When I leave the camp I will be more critical when making decisions and developing ideas as well as keeping the bigger picture in mind
- I have learned that sometimes you have to step back and listen to others
- I will try to compromise and listen to other people's ideas, cause not everybody will/could be right (Candidate)
- The one thing I will do differently at times – not overthink situations and follow my gut
- One thing I'll do differently from this experience – not limit myself to being a complacent member in a team and taking the lead role. Make sure what I've learnt is not lost by living 'good teamwork' every single day of life in my House Captain position
- People are really gifted and the best ideas can often come from those you least expected. So by listening to everyone, you can collect the best ideas (Candidate)
- I will always first wait and patiently analyse before acting when working in a team
- Remember to slow down a team towards the end of a task to avoid making unnecessary errors
