

THE BEACON SCHOLARSHIP IN SOUTH AFRICA

OPEN TO PREVIOUSLY DISADVANTAGED INDIVIDUALS ONLY

The Beacon Scholarship is open to South Africans from previously disadvantaged communities. Specifically, this refers to students from communities which were historically disadvantaged due to the policies of Apartheid, which created systemic inequality based on race. The term includes groups that were marginalized and denied access to quality education, resources, and opportunities as a direct result of their ethnicity or race, specifically South Africans of Black, Coloured or Indian heritage.
